

ROGERSTONE COMMUNITY COUNCIL

GET INVOLVED

YOUR COMMUNITY NEEDS YOU

The council are seeking lottery funding for a new playground that would be situated near the tennis courts in Rogerstone Welfare Grounds.

We do however require your help particularly from the parents of younger children who would be the major beneficiaries although some of the equipment will also be attractive to older groups.

To secure the substantial funding required we need a comprehensive community engagement so that we are able to illustrate that this project is fully supported by the community. So, Mums, Dads, Carers, Grandparents and other interested parties, please write in with the letters of support so that we can clearly show that our community are fully behind this project. We are fortunate here in

Rogerstone that we have some lovely facilities at our welfare grounds however, we clearly have a gap in the provision for younger children. It is only with your help that will be able to demonstrate that Rogerstone really needs this playground for our young people. Please, even if you do not have any young children, we would be glad to have your comments because we would want to demonstrate that we have consulted all demographics and

your views are very important so that we have a balanced response.

The more people that respond the stronger our case for the required funding, please don't leave it up to other people, your community needs you.

Please send your replies to:
Cllr Stephen Bowen C/O
